Future Leaders Inter-School Series

Overview

In the AI era, technical skills alone are no longer enough. Artificial intelligence is rapidly transforming how we learn, work, and solve problems. What will set young people apart is strong personal leadership — the ability to lead themselves with clarity, responsibility, and integrity, and to influence others with empathy and vision.

The Future Leaders Inter-School Series is designed to help secondary school students develop these essential human capabilities. Through interactive workshops, participants will build foundational leadership habits and skills while connecting with peers from other schools in a collaborative learning environment.

The 7 Habits of Highly Effective Teens

The 7 habits develop the personal leadership skills AI cannot replace. These habits also help teens build character, improve relationships, and achieve lasting success.

Be Proactive: Take responsibility for your choices

Begin with the End in Mind: Define your goals and values

Put First Things First: Prioritise and focus what matters most

Think Win-Win: Seek mutual benefit in relationships

Seek First to Understand, Then to Be Understood: Listen with empathy and talk with respect.

Synergize: Collaborate creatively

Sharpen the Saw: Renew yourself regularly

The 4 Essential Roles of LEADERSHIP

The 4 essential roles equip aspiring young leaders with the mindsets and skills to lead themselves and their teams effectively, while developing the human strengths needed to thrive alongside AI in a rapidly changing world.

Inspire Trust: Build credibility through character and competence others choose to follow.

Create Vision: Define and communicate a clear, compelling shared direction.

Execute Strategy: Turn vision into results by working effectively with others.

Coach Potential: Develop people through feedback and coaching, to unlock their higher performance.

Each workshop is expected to host approximately 25 students from 5–8 schools, with a maximum of 12 students per school. This intimate size ensures meaningful interaction, deeper learning, and genuine peer exchange.

English Workshop Schedule

9 Jan 2027, Sat	8:30 - 4:30	The 7 Habits of Highly Effective Teens Workshop
16 Jan 2027, Sat	8:30 - 4:30	The 4 Essential Roles of Leadership Workshop

Students may join one or both workshops according to their interest and availability.

Why Personal Leadership Matters in the AI Era

AI can process information and automate tasks, but it cannot replace human judgment, character, initiative, or the ability to inspire others. Students who master personal leadership — managing themselves, building trust, collaborating effectively, and thinking long-term — will be better prepared to thrive alongside technology and lead in an uncertain future.

Programme Fee

Fee per student:	HK\$ 980
Participant Guide:	English materials will be provided to all enrolled students.

Invitation

We warmly invite your school to join this program and enroll up to 6 students for one or more workshops. We would be delighted to discuss further details or arrange a short briefing.

28 August 2026

Dear Principal / Teacher-in-charge,

I am writing to invite your school to join the Future Leaders Inter-School Series, a leadership workshop programme designed for secondary school students.

The series consists of two interactive workshops:

- 9 January 2027 (Sat) : The 7 Habits of Highly Effective Teens Workshop
- 16 January 2027 (Sat) : The 4 Essential Roles of Leadership Workshop

Each workshop will bring together students from approximately 5–8 schools, with a maximum of 12 students per school. Students may participate in one or both sessions, and all participants will receive a Certificate of Participation.

The programme offers students the chance to develop practical leadership skills, meet peers from other schools, build their network, and learn in a collaborative environment.

Key Dates & Registration:

- 15 September 2026: Deadline to register your school's interest
- 31 October 2026: Deadline to complete student enrollments

Places are limited and allocated on a first-come, first-served basis.
